

# DVD Training for Adobe and Microsoft Products

Photoshop, Dreamweaver, Flash, Fireworks,  
Illustrator and more... (complete list on back)

Office 2007, ASP.NET, Visual Studio,  
SQL Server Development...

SAVE, TIME, MONEY AND INCREASE PRODUCTIVITY WITH TOTAL TRAINING!

**Come in and give it a try-**

- Go to the Computer Center (2nd floor)
- Logon to the computer using your library card\*
- Ask staff to enter the usage code
- Select the topic you want to learn about
- Plug in your headphones\*

and the learning begins...

**Self Paced**—Review only the amount of training that works for your style of learning, that can be viewed and absorbed before moving on.

**Time Saving**—Video courses can progress up to 50 percent faster than traditional courses because you can skip information you know and spend time on areas you need to learn.

**Increases Retention**—Total Training is engaging and entertaining, designed so you watch, work along and repeat what you have been taught. You are free to repeat a video, or lesson until you understand it. Project files are included.\*

**\* Please Note:**

Oak Lawn residents with a valid library card may use the Computer Center for free. Non-Residents pay a \$1 per logon (1 hour) fee. Additional logons (more time) will be allowed provided that the Computer Center has 5 or more open computers.

The Computer Center requires that headphones are used for sound. Ear buds can be purchased for \$1 at the Circulation Desk or you may bring your own.

The Computer Center does not have most of these software products loaded on the computers. The DVDs will run without the software but students will not be able to use the accompanying project files without the corresponding software.

Only one computer is available with this subscription. If you need a specific time frame please inquire at the service desk about making a reservation.

## Oak Lawn Public Library
